**Subject: Accredited paternity - kinship identification laboratories in
the context of the implementation of the provisions of the
Immigration and Social Integration Code**

As you know, by the No. 4441/25.1.2017 joint ministerial decision (Government Gazette Issue No. 406 B' Bulletin) during the stage of examination of residence permit applications filed by parents of minor nationals, when the family relationship results from recognition of the child and not from birth and if there are well-founded suspicions of misuse, the competent agency may request the presentation of additional documents that prove the kinship relationship, such as marriage

registration certificate or cohabitation agreement, or cohabitation of parents or exercise of the child's custody.

If the derivation of a safe judgment from the above is not possible, the citizen of a third country may provide a Deoxyribonucleic Acid - DNA test of the child and his/her parents performed by a public or certified private laboratory.

For the implementation of the above, and as we were informed by the National Accreditation Body, accredited paternity - kinship identification laboratories are the following:

- 1) [REDACTED]
- 2) [REDACTED]
- 3) [REDACTED]
- 4) [REDACTED]
- 5) [REDACTED]
- 6) European DNA Genetics & Identification Center S.A., DNAlogy SA (certificate no. 892)

Finally, we inform you that the list of the above laboratories is constantly updated with new laboratories, as well as with modifications of the existing accreditation fields, for which you will receive relevant information from our service
